SUMMARY

Master's graduate in Computer Science and Engineering from The Ohio State University with experience in full-stack web development, backend engineering, and applied software projects. Skilled in Java, Spring Boot, JavaScript, and modern web technologies, with hands-on experience building scalable applications, REST APIs, and user-focused platforms.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, SQL, Python, C++ (coursework), HTML, CSS

Frameworks and Libraries: Spring Boot, React, JQuery, Node.js, Express.js

Data / ML Libraries: Scikit-learn, Pandas, NumPy

Tools & Platforms: Git, GitHub, Android Studio, Postman

EXPERIENCE

Web Development Intern

Oct 2025 – Present

LitiArts

Remote

- Developed the frontend architecture for a literary journal platform using HTML, CSS, and JavaScript, supporting structured publication of journal issues and editorial content.
- Implemented dynamic content rendering using JSON-based data structures to simplify updates and reduce manual page duplication.
- Designed a scalable archive structure for organized access to previous journal issues and categorized content.
- Deployed and hosted the platform on a live server, managing domain configuration and deployment pipeline.

PROJECTS

Ledgic – Expense Ledger

2026

- Developed backend endpoints using Java and Spring Boot to manage expense records.
- Implemented RESTful endpoints to support creating, retrieving, updating, and deleting expense entries.
- Verified API functionality using Postman during development.

MiniStore – E-commerce Cart Application

2025

- Developed a responsive e-commerce interface using JavaScript, HTML, CSS, and Bootstrap with dynamic product listing and interactive UI components.
- Integrated the FakeStore REST API to fetch product data and dynamically render product cards from JSON responses.
- Implemented client-side cart functionality including item addition, removal, and quantity updates to manage user selections.

FoodNutrition (Android App)

2024

- Developed an Android application using Java and Android Studio for calorie tracking and recipe search as part of a three-member team project.
- Implemented user authentication workflows, including account creation and login functionality.
- Built dual-language interface support to enable language switching and improve accessibility.

EDUCATION

The Ohio State University

Columbus, USA

Master of Science in Computer Science and Engineering ~ CGPA 3.3/4

Aug 2023 – May 2025

- Relevant Coursework: Algorithms, Parallel Computing, Operating Systems, Software Engineering, Data Mining, Mobile App Development, Cybersecurity

Atharva College of Engineering, University of Mumbai

Mumbai, India

Bachelor of Engineering in Electronics with Distinction ~ CGPA 8.55/10

Aug 2019 – May 2022
